How many players are at the game?

Lesson I Problem Solving: Addition

★ You can **add** to solve some word problems.

Example 1

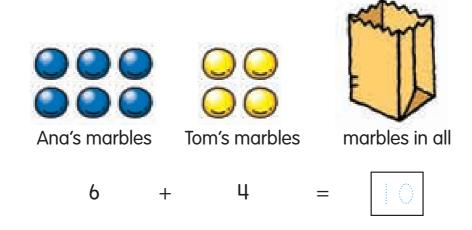

How many erasers in all?

▶ There are _____ erasers in all.

Example 2

How many marbles in all?

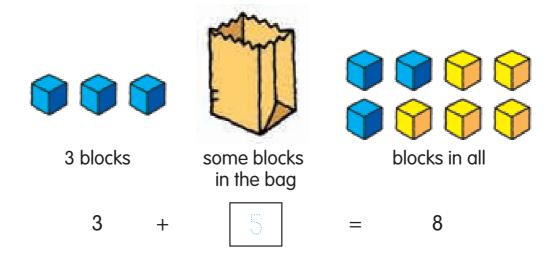

There are ____ marbles in all.

Duplicating any part of this book is prohibited by law. © 2014 Triumph Learning, LLC

Example 3

How many blocks are in the bag?

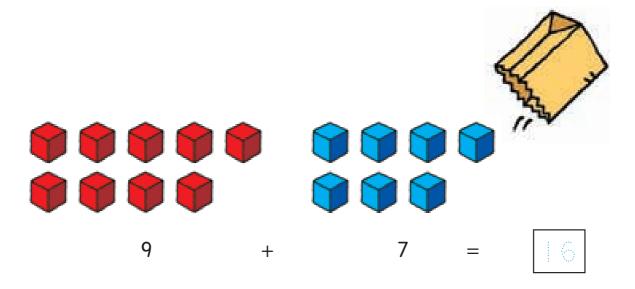

There are _____ blocks in the bag.

Example 4

Start with 9 blocks.

Then add 7 more.

How many blocks in all?

There are _____ blocks in all.

Bill has 5 puzzle pieces.

Jill has 3 more pieces than Bill.

How many pieces does Jill have?

Find 3 more than 5.

2 more than 5 is ______

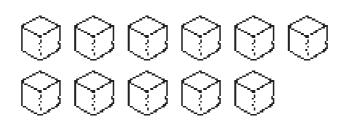

So 3 more than 5 is _____.

Jill has _____ puzzle pieces.

Practice

Hyun has 4 red blocks. Her mom gives her 7 blue blocks. How many blocks does Hyun have in all?

Hyun has _____ blocks in all.

There are 5 green toy trucks and some yellow toy trucks. There are 13 toy trucks in all. How many yellow toy trucks are there?

There are _____ yellow toy trucks.

Rosa had some gold stars. Dad gave her 6 more. Then she had 15 gold stars. How many gold stars did Rosa have to start?

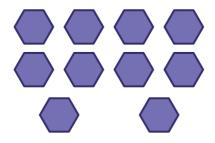

$$+ 6 = 15$$

Rosa had _____ gold stars to start.

Sam has 3 more stickers than Jim has. Jim has 10 stickers. How many stickers does Sam have?

Jim's stickers

Sam has _____ stickers.

5 DRAW There are 7 red balloons and 5 yellow balloons at the party. How many balloons are there in all?

There are _____ balloons in all.

How did you find your answer?
